FREESKI RANGE

Fixed freeski skipoles are our classic poles with a comfortable race grip and traditional tip. They are built for freestyle and all mountain skiing.

Telescopic freeski skipoles have a comfortable high quality race grip and are great for touring. You can easily switch between freestyle and backcountry.

Both models are made of light, durable, eco-friendly and completely recyclable aluminium alloy 7075.

Majesty freeski skipoles are equipped with two sets of snowrings - freeride 85mm and freestyle 50mm.

TOURING RANGE

13,000 + tax

Size One

Touring fixed skipoles are our reliable poles with a long touring grip and vidia tip. They are built for touring and freetouring. Touring skipoles offer full range of adjustability, lightweight and different grip options for long tours and steep traverses. Touring 3-stage skipoles are great for ski alpinism and technical tours.

All models are made of light, durable, eco-friendly and completely recyclable aluminium alloy 7075. New foam grip with lower tube provides lightweight and ergonomic comfort. The new seamless strap is made of high resistance polyester. It is durable, light and breathable. Roundhead handle allows to hold the pole by the head, giving a supreme performance on flat areas and safety grip on steep ascents.

Touring 3p Nova

Weight: 260g

Touring 3p Wolf

They come equipped with:

- touring foam grip with round head handle
- vidia tip
- new light and very comfortable touring strap with all-over printed logos
- comfortable strap with Majesty logo
- thick 18mm tube for extra rigidity
- 85mm snow baskets
- stylish matt finishing
- quick lock with alloy lever – a locking system recommended for ski-alpinism, easy to adjust the pole length + emergency twist lock inside (only touring skipoles)
- thinner lower shaft for a lighter and better balanced skipole, with reduced swing effect and wind resistance (only touring skipoles)

FREERIDE RANGE

Freeride fixed skipoles are our reliable poles with a long touring grip and vidia tip. They are built for freeride and freetouring. Freeride touring skipoles offer full range of adjustability, lightweight and different grip options for skiing in different terrain. All models are made of light, durable, eco-friendly and completely recyclable aluminium alloy 7075. Long foam grip with lower tube provides lightweight and ergonomic comfort. The new seamless strap is made of high resistance polyester. It is durable, light and breathable. It is so soft that you can hold it along with a grip while skiing down in steep and sketchy terrain. Roundhead handle allows to hold the pole by the head, giving a supreme performance on flat areas and safety grip on steep ascents.
